NOTIFICATION

Sub: Ordinance governing the Practical/Clinical and Viva-Voce Examination of Medical Undergraduate, Postgraduate Degree/Diploma and Super speciality courses under Rajiv Gandhi University of Health Sciences

Ref: 1. Decision of the Committee of Academic Council CAC Meeting held on 12.08.2024.
2. Decision of the 187th Syndicate Meeting held on 26.08.2024

Preamble:

In order to ensure proper and systematic instruction, teaching, training, and research in modern and Indian systems of medicine, the Karnataka government has established the Rajiv Gandhi University of Health Sciences, effective from June 1, 1996, by enacting the Rajiv Gandhi University of Health Sciences, [Karnataka Act] 1994. The number of medical, dentistry, allied health sciences, nursing, pharmacy, physiotherapy, AYUSH and other colleges and students have increased phenomenally, for the past few decades which has necessitated the regulation, monitoring, and standardization of curricula and assessment methods; and periodic amendments to them.

Apex bodies that lay down standards, that are required to be adopted and implemented and which bind the Universities across the country, have also provided, by amended regulations, guidelines etc, newer provisions, requiring the RGUHS to keep in step with them.

It needs to be factored that, under the present Regulations of MCI/NMC; and provisions made thereunder, the minimum annual intake of MBBS students in affiliated colleges being 100 and the annual intake in Post Graduate Courses likewise varying for different subjects, from individual faculties; it is reasonable to expect number of students who could be 'examined' for Practical/Clinical and Viva Voce; per examination, will be upto '30 students' in under-graduate courses and, from 1 to 8 students, in postgraduate degree/diploma and in super speciality courses, per day, to make it workable, effective; practical and feasible.

Also, to be noted is the fact that, the 'maximum number of students' indicated, as above will not have any constraint on the Examiners; for the time to be taken/involved for assessing and evaluating the performance of a candidate.

In practical/clinical and viva-voce examination, in each subject, there may be/will be different exercises/clinical cases/OSCE/OSPE/spotters etc., as per the Apex body/RGUHS Syllabus that may be prescribed from time to time.

With increased number of student's intake and, appearances in the examinations in the wards of the Hospital (practical examination centre) on live patients, puts heavy burden on the Examiners of time constrain and at the same time ensuring proper conduct of examinations and evaluation, keeping in mind equity and students' interest.

Keeping in view, various observations by the Hon'ble Courts, during the hearing of many of the cases, that have come up before the Hon'ble Court, for past several years; the authorities of the University having over viewed several aspects; and noticing it, has been recommended for issuance of a new ordinance; addressing all these issues, effective from the ensuing Examinations [commencing from 9th August 2024].

The matter was placed before the CAC Meeting held on 12.08.2024 and the 187th Meeting of the Syndicate held on 26.08.2024. The Syndicate has approved the proposed Ordinance.

Hence, this Ordinance.

Notification No.RGUHSB/RRAC/AUTH(MEET)/8/2024-AUTH, Dt:27.08.2024
