4. Letter of Reply from NMC vide ref no N-U-11021/21651/358/2024-UGMEB-NMC Dated 13th December 2024

Background:

The matter of providing the model answers / key answers for the descriptive type of questions in question papers of the university examinations, has been discussed in various meetings earlier. However, the matter was fiercely discussed in Academic Council and in 187th syndicate meeting. The decision of the 187th syndicate meeting proceedings, AC meeting proceedings and NMC reply were submitted before the Hon'ble High Court of Karnataka, for its decision in the WP No 16960. The Hon'ble High Court of Karnataka has directed the University- Academic Council to reconsider the issue of providing model answers to the descriptive type of question for all its health science courses

Detailed Note:

As per the direction of THE HON'BLE HIGH COURT OF KARNATAKA AT BANGALORE DATED 18 TH MARCH 2025 IN WP NO 16960 of 2024 between

DR Abhishek M Sutarve and Rajiv Gandhi university of Health sciences Bangalore, the matter is kept for reconsideration of providing model (key) answers for the theory question papers – Regarding With reference to the above subject, the Ordinary Academic council in its meeting held on 11/6/2024 and subsequently 187th Syndicate in its meeting held on 26/8/2024, discussed in detail regarding offering key answers/ model answers for descriptive type of questions in the university health science courses examination. The decisions taken during both of the above meeting are as follows:

1. The Academic council unanimously resolves that, for essay type of questions, the key answers shall not be provided for evaluation for any course, however key answer shall be provided for multiple choice questions carrying one mark, as per apex body norms.
2. The Syndicate following the Academic council resolution, deliberated in detail upon the recommendations of committee of Academic Council and approved the recommendations as not to have model key answers for any descriptive questions of any faculty/course under RGUHS except for the multiple choice questions(MCQ) as per apex body/university norms.

Subsequently, from University, a letter was also addressed to The Secretary, National Medical Commission, New Delhi, Vide ref No 3 quoted above, for Clarification regarding provision of Keywords/Model answers for evaluation of descriptive type questions of Theory Examinations for Medical Undergraduate and Postgraduate courses.

Reply was received from The Secretary, National Medical Commission, New Delhi, vide reference no (4), quoted above, which states that the *“National Medical Commission supports the decision of the Academic Council and Syndicate decision dated 11.06.2024 and 26.08.2024 respectively and especially the decision given at 6(I) of the minutes of the 187s Syndicate Meeting held on 26.08.2024 at RGUHS, Bangalore”*.

The decisions of Academic council meeting, syndicate meeting and National Medical Commission clarification letter were submitted to the Hon'ble High court of Karnataka in its WP NO 16960 but Hon'ble High court of Karnataka in its order dated 18 march 2025, has directed the syndicate and academic council to reconsider their earlier decision regarding providing key answers. The excerpts of the Hon'ble High court are placed for further discussion and deliberation in the above matter.

The points that would arise for consideration and the excerpt of the court deliberations are as follows:

Would the assistance of a model answer key/paper be necessary in the background of evaluation for a post-graduate degree, and would the lack thereof have prejudiced the petitioner herein?

Submission of the Senior Learned Counsel for the petitioner:- The submission of learned counsel for the petitioner is that if a model answer paper is provided to the evaluators, they would be in a better position to evaluate the papers properly and if such model answer key or model answer

paper is put in a public domain, the students could also verify from the answer key if they have answered properly. This would bring about transparency in the examination process, make the examination more robust and the evaluation of the answer script proper and transparent.

Submission of the Senior Learned Counsel for the petitioner: - Learned Senior Counsel appearing for the University would submit that this aspect has already been considered by the Academic Council in its meeting held on 10th June, 2024 at Agenda item No.6, which is attached as annexure with this reference note (Annexure -1). He submits that there are around 3,000 +question paper codes for different courses at RGUHS and a minimum of 10 sets of question papers being prepared for each code of question paper. Framing of model answers for the descriptive essay type question is challenging, especially in Health Science courses and as such, key answers are only provided for multiple choice questions and not for essay type questions. He further submits that the Academic Council having considered and deliberated on all these issues has come to a conclusion that for essay type questions, the answer keys shall not be given or provided for the evaluators of any course. However, key answers shall be provided for multiple choice questions and on that basis, he submits that the Academic Council, which is the expert body in the field having considered this aspect and negated the requirement to provide model-key answers and that such decisions may not be interfered with by this Court.

Submission of the learned senior counsel for the petitioner are as follows:

- The submission of learned Senior Counsel for the petitioner is that this is essentially a policy decision and the Academic Council being comprised of experts such decision made by the Academic Council ought not to be disturbed. What the Academic Council has taken into account is that there are more than 3,000 subjects codes, there would be as regards each subject-10 question papers to be prepared, thus there would be about 30,000 question papers and therefore, 30,000 model answer scripts and key answers, would have to be created per examination. This has been held to be administratively very difficult and as such, a policy decision was taken that model answers or key answers could not be provided. This decision has been taken purely on the basis of administrative difficulties. There are no other reason/s which has/ve been given except administrative difficulties, in my considered opinion the benefits of providing key answer/model answers have not been considered, the academic council has sought to negate its own responsibilities on the basis of administrative difficulties. The CAC, AC and the Syndicate as also the vast workforce of the university have been engaged to cater to these kind of requirements and they are required to administer the university in a proper manner, needless to say they are also paid for it.
- Providing key answers or model answers for an examination question paper is an essential practice in education that benefits students, teachers, examiners, and educational institutions. These solutions serve as benchmarks, guiding students on how to structure their responses, helping teachers maintain consistency in grading, and ensuring fairness and transparency in the assessment process.

By addressing these concerns, the education system can ensure that model answers serve as an aid to learning rather than a hindrance to intellectual growth.

It is high time that the above are considered by the Academic Council in the proper perspective and action taken, rather than to disown or abdicate responsibility on account of administrative difficulties.

The manner in which cases have been coming up before this Court, if the numbers are tabulated, it would be clear to the University that thousands of petitions are coming up as regards the discrepancy in the valuation on account of which, a student has been declared failed.

It is not only the number of litigations that has to be seen, but the number of lives which are dependent on such evaluation too, more particularly students in the younger age group whose confidence could be adversely affected if they are declared failed on account of improper evaluation. The impact of this on the psyche and the future of the student, on the family of the student, the society as a whole, as also on the college and the University need not be more emphasized.

- The reasoning of the Academic Council would indicate that there are 30,000 subjects being taught and there are already 10 question papers for each subject which have been prepared that would mean that the University has no problem or difficulty in preparing 30,000 question papers, but has expressed only difficulty as regards preparing corresponding model answers or key answers.
- The Academic Council would have to reconsider its decision on this aspect. The very same person, who is setting the question papers would be the best person to prepare the key answers or model answers. Thus, while preparing the question paper, the model answers or key answers could also be prepared by the very same person, who has set/drafted the question paper. This would not cause any administrative strain on the University, but would go a long way in catering to the difficulties faced by the students, while doing so the above aspects pointed out could be considered apart from those that may be indicated as guidelines by the Academic Council approved by the Syndicate.
- The approach of the Academic Council apparently has been to find fault with and or find difficulties in preparing the model answers and key answers. The Academic Council ought to have actually looked into how to solve the problems of the students, the colleges and the University, thus bringing a stop to these kinds of litigations which are a pain for everyone. No student wants to come to court to agitate their grievances. **Thus, I am of the considered opinion that the Academic Council would be well advised to reconsider the decision** and appoint an external agency to look into this aspect and work towards providing model answers and key answers by working out a methodology as to how it can be provided rather than to state the difficulties of providing it. This being the need of the day, I am sure the Academic Council and the Syndicate would take this in the right perspective and implement a proper system.

Hon'ble High Court of Karnataka, after hearing the arguments, stated its order as follows:-

- In view of my findings to all of the above points, I do not find any discrepancy in the ordinance issued for governing the evaluation process of the examinations for Post Graduate including Diploma and Super Specialty courses, nor is there any manifest arbitrariness in the ordinance issuing process.
- As regards the manner of evaluation, I do not find any discrepancy in evaluation of the answer script of the petitioner, however I find the need for training the evaluators before giving them the work of evaluation, hence the University is directed to carry out necessary training in that regard.
- In so far as providing key answers/model answers, the Syndicate and Academic Council are directed to reconsider their earlier decision in terms of the observations made hereinabove

Therefore, the matter is kept before the Academic Council meeting again, for detailed deliberations and further decision.

DELIBERATION:

As per the directions of Hon'ble High Court of Karnataka, the long-standing concern/issue of providing model/key answers to the theory question papers for evaluation, it is once again placed before the Ordinary Academic Council on 11/06/2025.

The above matter was deliberated in detail by all the members of the Academic Council, which is comprised of approximately 60 senior faculties belonging to various faculties/specialties.

Possibilities and feasibility of providing Key answers: -

Academic Council came to the conclusion that it is practically not possible to provide key answers, considering the vast subject diversity, frequent changes in the field of Medical Education. It also pointed out that providing key answers impacts on the learning and retaining of knowledge and also on its application.

It also felt that, by providing the model key answers, it will promote the guided learning to the specific aspects of Human life and it will lead to rote learning in future. Academic Council noted that, even the National Medical Commission has the same opinion in this aspect as that of Academic Council.

DECISION OF ACADEMIC COUNCIL: In view of the suggestion/observation of Hon'ble High Court of Karnataka, vide para 18.23 wherein a suggestion was made to appoint any external agency to reconsider its earlier decision and work out a methodology as to how it can be provided, Academic council recommends to form a committee comprising of Deans of All Faculty, Board of Studies Chairmen, One or two senior experts from other health universities to deliberate on providing model key answers to descriptive questions.

Such committee shall also obtain information from other universities and submit its report within three months regarding the feasibility, advantages/disadvantages of the same and place it before the next Academic council or CAC for deliberation.

SUBJECT NO. 3(4)(5)28: DR. RACHAYYA COLLEGE OF PHYSIOTHERAPY, YADGIRI

FRESH COURSE: BPT course

Preamble:

Dr. Rachayya College of Physiotherapy had applied for fresh affiliation for BPT for 2024-25. Following the LIC inspection and subsequent scrutiny of the documents, owing to not meeting the minimum standard requirements the college was not recommended for fresh affiliation. With the writ petition

REGISTRAR

VICE-CHANCELLOR

165256/2025 the Honourable High Court vide its final order directed the university to reconsider the application of the petitioner college which was rejected vide endorsement dated: 05.11.2024. For compliance of the direction of the Honourable High Court the legal cell of RGUHS opined to reconsider the application in accordance with the norms prescribed in the RGUHS act taking into consideration of Trust deed and strength of bed in the parent hospital as observed by the court on perusal of such documents. Hence, re inspection was conducted.

DECISION OF CAC:

1. Infrastructure facilities with classrooms, labs, equipments, Library books are not as per minimum standard requirements. Further, incomplete infrastructure development without any safety measures as noted by the inspectors makes the college premises unsafe for educational purpose.
2. Faculties 3 Nos, 1 Professor, 1 Assistant Professor 1 Lecturer, are adequate for the course applied.
3. Dr. Surgimath Hospital, KPME, KSPCB 30 bedded with clinical training facilities does not fulfil the clinical training needs and does not meet the hospital criteria as per the minimum standard requirements. Further, no separate OPD facility is made available at college as per norms.

Hence, Not Recommended for Fresh Affiliation for BPT course.

SUBJECT NO. 8: ANY OTHER MATTER WITH THE PERMISSION OF THE CHAIR.

SUBJECT NO. 8(1): PROPOSED MEDICAL COLLEGES AT KANAKAPURA AND BAGALKOT

The Registrar briefed the Syndicate regarding the agenda pertaining to the Medical Colleges as proposed by the Government of Karnataka in the State Budget at Kanakapura and Bagalkot. As per the Hon'ble Chief Minister's budget speech in 2025 regarding financial assistance for Setting up Medical College in Bagalkot.

It was informed that the Hon'ble Chief Minister is expected to convene a meeting shortly to review the progress and seek the University's stand on the matter. A DPAR proposal has been prepared by the Government, involving the Department of Health and Family Welfare's Engineering Wing to execute the project.

As per the initial cost estimates shared by the Government the budget requirement is approximately ₹950 crores for the Kanakapura Medical College and ₹526 crores for the Bagalkot Medical College.

In the multiple meetings (3-4 times) were held between RGUHS and Government officials to deliberate the implementation strategy for accommodating the budget requirements, the University has expressed that the commitment of funding are not sustainable. Accordingly the budget estimates were tentatively revised to ₹550 crores for Kanakapura and ₹450 crores for Bagalkot is subject to change based on Government decision.

As per the University existing financial capacity and ongoing projects committed previously, particularly the RGUHS Campus and Medical College at Ramanagaram, Research Centre at Bheemanakuppe, University activities, and prior announcements like Skill Labs—the remaining funds is not sufficient to support both the new colleges.

The Hon'ble Vice-Chancellor further briefed that the University has already released ₹300 crores and another ₹300 crores is pending towards RGUHS Campus and Medical college at Ramanagaram. Additionally, the starting of the Ramanagar college, increasing bed strength, construction of staff quarters, auditorium, and sports complex will require an additional ₹500 to ₹600 crores. The University must also ensure the provision for salaries and operational expenses.

In extensive discussions between the Hon'ble Vice-Chancellor, the Hon'ble Minister for Medical Education, the Principal Secretary, the Registrar, and the Finance Officer, it has decided that RGUHS will contribute financially and funds released in a phased manner not hampering the ongoing projects made under RGUHS.

The Hon'ble Minister for Medical Education indicated that as the tendering and funding maybe done in a phased manner, which allows the University to begin funding from next financial year only.

The Registrar further informed that the Hon'ble Chief Minister may convene a meeting shortly to seek the University's official stand on the matter. Therefore, it is necessary to empower the authorities of RGUHS to take an appropriate and timely decision in the best interest of the University. Any decision taken by the authorities will be placed before the next Syndicate meeting for ratification. If necessary, a Special Syndicate Meeting shall be convened.

All the Syndicate Members present namely Dr. Yogananda Reddy Y.C., Dr. Muralidhar R., Dr. Ramanath G.P., Dr. C. Jagadeesh, Dr. Ramachandra Prabhu H.D, Dr Madhusudhan, Dr. C Obul Reddy, Dr. Kirankumar S. Kulageri, Dr. Nagesh N.S., and other members—extensively discussed the matter, focusing on balancing the financial constraints of the University with the Government's expectations.

DECISION OF SYNDICATE: The Syndicate, after detailed deliberation, authorized the authorities of RGUHS to take an appropriate decision in the matter, keeping in view of the best interest of the University, Ongoing development of the Ramanagaram campus, Research Centre at Bheemanakuppe, Construction of Allied Health Science Colleges at Kalaburagi and Mysuru, Salaries and operational needs of the University and prior projects committed and approved.
